Tonight lets feel alive
unplug the phones and realize
that there is so much more to give
Leave the money and feed the rest.

Tonight let the spirits out.
Unplug the phones and start a crowd.
And I'll be your bank of trust,
without a war and without a rush.

Cause I
Feel alive.

When I am so much more than me.
The world is energy.
Keep on thinking. Free our mind.
Truth will set us free

And I love the fact, that we are ment to be.

Will you be my valentine?
Ill be your sugarlove...
and we could walk hand in hand
Earth and freedom across the land.

Cause I
Feel alive.

When I am so much more than me.
The world is energy.
Keep on thinking.

Free our minds.
Truth will set us free.

And I love the fact, that we are ment to be

Dont believe what they say
Dont believe what you heard
Dont believe the world

When I am so much more than me.
The world is energy.
Keep on thinking.
Free our minds.
Truth will set us free.

And I love the fact, that we are ment to be

When I am so much more than me.
The world is energy.
Keep on thinking.
Free our minds.
Truth will set us free.

And I love the fact, that we are ment to be.

Tonight lets feel alive
unplug the phones and realize
That there is so much more to give
Leave the money and feed the rest
